Parallel Jaw Body Clamps – The ultimate woodworking clamps by a country mile - fantastic!

A clamp - A spreader - A sash clamp - A bench clamp

Parallel jaw surfaces do not twist, pivot or move making them ideal for edge clamping and non-parallel clamping. Non slip devices provide **SAFE and SECURE** when clamping <8,000N (800kgs) clamping force. 95mm throat depth.

KRE30-2K	300mm	255-390	\$57
KRE60-2K	600mm	255-730	\$67
KRE100-2K	1000mm	255-1130	\$85

One Handed Clamp & Spreader

Glue and solvent resistant parts. Protected trigger release. Great balance and control due to slim handle design.

EZS30-8	300 x 80mm	170-510	\$29.95
EZS45-8	450 x 80mm	170-660	\$31.95
EZS60-8	600 x 80mm	170-810	\$34.95

Lightweight *Vibration Resistant* Lever Clamp

50% faster to clamp than screw clamps. Magnesium alloy jaws for strength and lightness. Glue and solvent resistant trigger and handle. Ideal for use with power tools.

STABILA 50m Laser Distance Measure

How true pro's measure

- ✓ Measuring made easy
- ✓ Compact easy to use
- ✓ Measures distance, area, volume and continuous measurement
- ✓ **Bluetooth®** Smart 4.0 wireless connectivity with FREE STABILA measures app to tablet or phone
- ✓ Large easy to read illuminated LCD digits
- ✓ Impact resistant housing with STABILA soft grip casing
- ✓ ISO 16331-1 compliant
- ✓ Metric/imperial conversion
- ✓ Rear reference point
- ✓ Acoustic signal
- ✓ Warranty 24m
- ✓ Accuracy +/-2mm
- ✓ Protection class IP54
- ✓ Batteries 2 x AAA up to 5,000 measurements
- ✓ Auto shut down up to 3min

Bluetooth®

Always have the right length of level to do the job!

Builders should be prepared for all potential problems. In many cases they take several spirit levels with them onto the construction site.
“Until now!”

The solution: The Stabila telescopic extension spirit level Type 80T.

One spirit level now does the work of several.

Non slip wall pads

Extension lock and guaranteed precise parallel extrusion extension

Cm scale rule

Continuous straight marking edge

80T Series Extension Levels

Wide, stable 45 x 50mm frame. Milled levelling surface for improved accuracy. 2 high visibility, permanently fixed, non fade, non leak, electrostatic stable vials for lasting accuracy. Suitable for normal (+/-0.5mm/m), upside down (+/-0.75mm/m) and extended (+/-1.0mm/m) use applications.

Description: 630-1050mm Extension Level
Code: 80T/63-105
Extends by: 420mm

Special Price: \$95

Description: 800-1270mm Extension Level
Code: 80T/80-127
Extends by: 470mm

Special Price: \$105
